Bring HR & Payroll Together

And achieve operational excellence.

Say goodbye to disparate systems or clunky integrations and hello to making better informed decisions. Take on a more strategic role with less redundancy, fewer errors and better analytics through a single source of truth. By accessing, sharing and analyzing your HR and Payroll data from isolved People Cloud, you'll drive organizational performance more strategically.

isolved People Cloud

An intelligently-connected HCM platform providing a single data set designed to improve your business decisions and planning.

Insightful Reporting

No more missed opportunities. Generate reports with actionable insights for measuring and accelerating business growth.
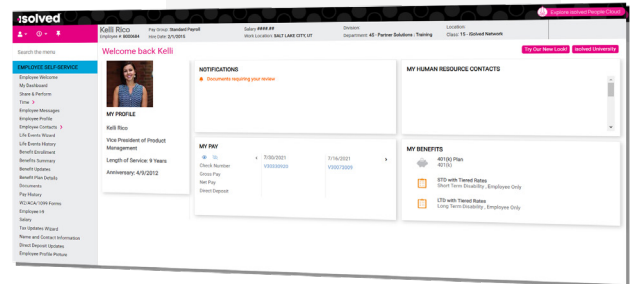

Richer Employee Experience

Employees now become partners. Boost employee engagement by offering real-time access to data through self-service capabilities.

Improved Compliance

Tackle ever-changing employment legislation. Making updates to a single data set is optimal for adapting to changes related to taxes, employment regulations and more.

According to Gartner, HR leaders see operational excellence as their top business priority for 2021.
